OMEGA POINT

An introduction to the Spirituality of Pierre Teilhard de Chardin SJ

Led by Adriana Janus

July 21 – 23, 2023
St Francis Retreat Centre
50 Hillsborough Road,
Hillsborough, Auckland.

About Pierre Teilhard de Chardin and the Retreat

Pierre Teilhard de Chardin SJ was born in the last decades of the 19th Century and lived through the turbulent first half of the 20th Century until his death in 1955. He was a Catholic priest, a scientist and also a mystic. Teilhard grew up in the Auvergne in France, where his mother instilled a deep religious piety in him, and his father encouraged him to collect fossils and other natural objects. His specialisation as a palaeontologist and a theologian inspired his vision of the all-encompassing interweaving of the Divine and Creation, and the place of planetary humanity as all of us together travel towards our ultimate fulfilment or Teilhard's *Omega Point*. The retreat will look at aspects of his Spirituality relevant for modern times. The retreat will include talks, periods of silence, prayer and meditation. People new to the practice of meditation in the Christian tradition are most welcome and encouraged to attend.
